Important Information from Symmetry Partners, LLC

Symmetry Partners, LLC is an investment advisory firm registered with the Securities and Exchange Commission (SEC). The firm only transacts business in states where it is properly registered or exempted or excluded from registration requirements. Registration with the SEC or any state securities authority does not imply a certain level of skill or training. Any chart that is presented in this presentation is for informational purposes only. Symmetry charges an investment management fee for its services. All Symmetry fees and other important information can be found in the Symmetry ADV Part 2A located on the website at www.symmetrypartners.com/disclosures-prospectuses.

Symmetry does not provide tax advice. Please note that (I) any discussion of U. S. tax matters contained in this material cannot be used by your for the purposes of avoiding tax penalties; (ii) this communication was written to support the promotion or marketing of the matters addressed herein; and (iii) you should seek advice based on your particular circumstances from an independent tax advisor

ESG (Environmental, Social and Governance) Investing Risk: ESG Investments may not be perfectly correlated to the broader market indexes they seek to replicate. Stocks screened by the index sponsor for ESG criteria may underperform the stock market as a whole or particular stocks selected for the Index will, in the aggregate, trail returns of other funds investment strategies screened for ESG criteria. The individual companies deemed eligible by the index provider may not reflect the beliefs and values of any particular investor and may not exhibit positive or favorable ESG characteristics. The components of the Index are likely to change over time.

Axiom Program Risks: The Symmetry Axiom program provides clients with individual security portfolio solutions designed around individual client preferences. The Axiom separately managed accounts (Axiom SMAs) can be index- or factor-based. The index-based solutions are designed to give clients exposures similar to popular market indices, with far fewer individual security positions. The factor-based solutions are designed to emphasize those factors [need to define/describe factors or refer to somewhere in the ADV where they are already described] the Research/Portfolio Management team believes will optimize risk-adjusted return. Both the index-based and factor-based portfolios hold individual securities.

Tax-loss harvesting involves certain risks, including, among others, the risk that the new investment could have higher costs than the original investment and could introduce portfolio tracking error into your accounts. There may also be unintended tax implications. Prospective investors should consult with their tax or legal advisor prior to engaging in any tax-loss-harvesting strategy.
