Understanding the SMA Investment Strategy

Drawing on decades of data and extensive academic research — and Symmetry's own — this SMA is grounded in evidence and financial science.

Symmetry seeks to harness the power of markets via strategic exposure to factors identified by academic research as offering the potential for higher returns over time (or reduced risk). This SMA focuses on the following factors:

- **Value** - Cheap stocks tend to outperform expensive stocks
- **Momentum** - Stocks that outperform in the near term tend to continue to do so
- **Profitability** - Stocks of profitable firms tend to outperform the stocks of unprofitable firms

Symmetry's *Research and Portfolio Management team of CFA® charterholders and analysts* is guided by fundamental investment principles applied thoughtfully and with intellectual rigor. The team brings almost three decades of experience building Evidence-Based investment solutions and models, such as this SMA, using a process-driven approach, backed by a unique, integrated technology engine. **The team also has substantial trading and tax optimization expertise.**

Panoramic Direct Indexing Program Risks

The Symmetry Panoramic Direct Indexing program provides clients with individual security portfolio solutions designed around individual client preferences. The Panoramic Direct Indexing separately managed accounts (Panoramic Direct Indexing SMAs) can be index- or factor-based. The index-based solutions are designed to give clients exposures similar to popular market indices, with far fewer individual security positions. The factor-based solutions are designed to emphasize those factors. The Research/Portfolio Management team believes will optimize risk-adjusted return. Both the index-based and factor-based portfolios hold individual securities.
